Individual Contract and Monthly Summary Data. The DCADS FY 2002 file contains both individual contract action data and monthly summary data. The DD350 was used as the input for the individual contract action data. The DD1057 was used as the input of the monthly summary data. The records containing monthly summary data are identified by those records having 13 zeros in column IDKEY in record positions 57 – 69. The table below and Comments portion of the AERIC Record Layout Report (Folder 16) indicates which of the columns contain DD350 data, DD1057 data, or both. The DCADS FY 2002 data file contains up to 11,858 monthly summary records based upon the number of zeros found in the IDKEY column the AERIC Summary Results of Code List Verification report.

III. AERIC Verification.

The Archival Electronics Records Inspection and Control (AERIC) system verification reports (Folder 16) contain the results for a code (DCADS_LAYOUT_90_95_LSA) on pages 2 and 5 which are not a part of the FY 2002 agency documentation. This is an anomaly of the AERIC system and is a result of the means in which the AERIC Record Layout for

DCADS FY 2002 was created. The results for the DCADS_LAYOUT_90_95_LSA code list have been crossed out in the AERIC verification reports and should be disregarded.
